Post Office Lane Revitalisation UPDATE

Concept designs for a canopy which will cover Post Office Lane have now been completed.

Tenders will be soon called for the canopy's manufacture, with installation planned for early in 2019.

The City of Greater Dandenong commissioned leading Melbourne based landscape and urban design group ASPECT Studios to develop canopy concepts which would reflect Springvale's character and appeal.

The design process also involved the community, in particular local primary school students, to identify some of the features for inclusion in the canopy design.

The result is a design which draws on Springvale's multicultural attributes, utilizing elements that symbolize vitality, prosperity and good luck.

The canopy will also include lighting at night. As well as increasing safety, the lighting will accentuate the canopy's colour design, making the laneway a 24/7 attraction.

Significant improvements have already been made to Post Office Lane, including resurfacing, better drainage, an irrigation system, planter boxes, benches and tables.

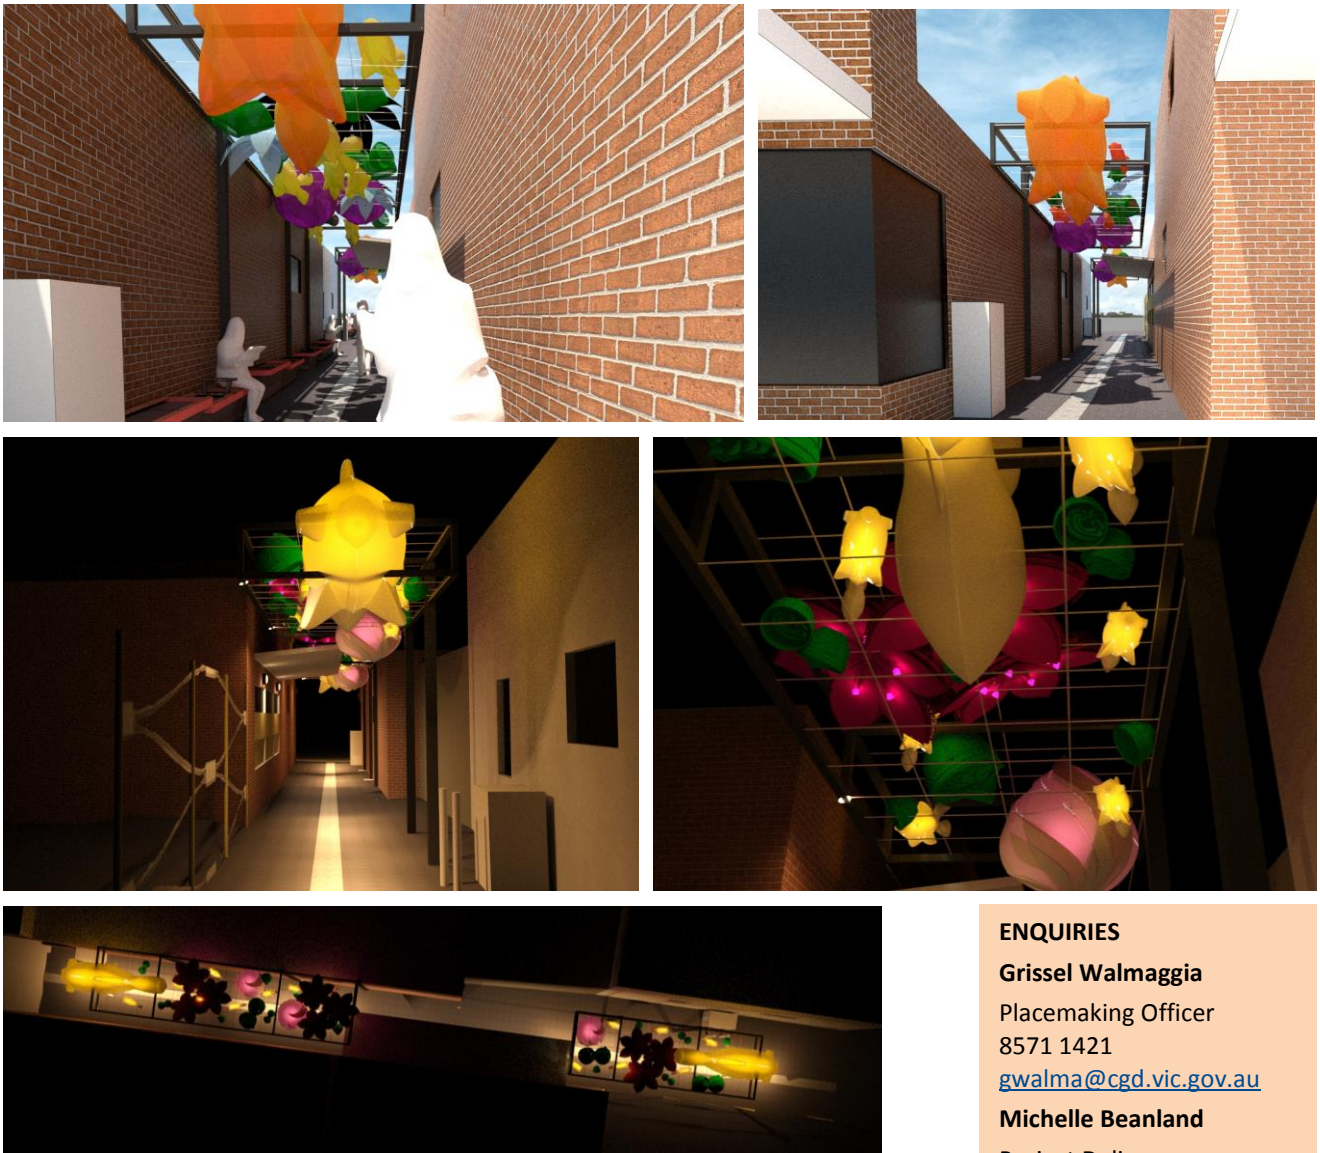

Once canopy works are completed, Post Office Lane will stand out in the Springvale Activity Centre, and significantly add to the comfort and safety of the many pedestrians that use the lane connecting Warwick Avenue Carpark and Springvale Road's shops and retail premises.

In February 2018, students from St Joseph and Springvale Rise Primary Schools assisted Council's designers with the development of a new lighting canopy for Post Office Lane. Once in place, the canopy will add to pedestrians' comfort and become a loved landmark.
